MARCH PRICE INCREASES.

Dear customer,

Given the current market conditions we know how important it is that you are provided with advanced notice of any significant price changes. We are therefore advising you of some price increases on products that are planned to come into effect on March 1st 2023.

As always, we are working hard behind the scenes with our suppliers to minimise all increases but we wanted to let you know the current projected increases to allow you to plan accordingly.

Product Category	Price Increase
Aggregates	Varies by region*
Concrete Lintels, Steps and Cills (Scotland Only)	7.75%
Cement	11%
Aggregate blocks	Up to 10%*
Aerated blocks	Up to 12.5%*
Landscaping porcelain	17.5%
Rainwater	Up to 6.3%
Drainage and soil & waste	Up to 6.3%

* This increase will vary depending on your location, please speak to your nearest branch for more information.

Please note, the above increases do not apply to all products within the categories and only highlight the most relevant price increases.

Why we're increasing our prices.

The biggest reason noted for our suppliers increasing their costs are the significant pressures of increased energy costs. This is coupled with the continued rise in costs for the raw materials used to create the products themselves, as well as increased costs for transportation and fuel.

Profit Checker.

Using the Build Aviator estimating service not only saves you time and helps you win more work but also ensure you stay on budget through the build. Once you've won the job after using Build Aviator the Build Kick-Off process begins for free. Closer to the build start date, Build Aviator will make sure any new information is put into the new estimate and update it with the latest material prices so you can see any difference in profit. A comparison report detailing this will be generated to help you have that conversation with your client.
